

At East Quay we believe in providing the best level of care and attention, tailored to meet the needs of each person we see. This philosophy also extends to all our eye care services. During your visit we take the time to clearly explain the procedures carried out and your results so you can understand what it all means.

LAUNCHING 2025

East Quay Vision are pleased to now be offering **Colorimetry Assessments** using the ReadEZ system.

Colorimetry is when the use of coloured overlays or tinted lenses can reduce the symptoms of visual stress.

Curious about how it works? Book an assessment today with our lovely Optician Coraley Dunn.

OCT scans now available with upgraded exams

- Unobtrusively see through the layers behind your retina with a 3D OCT scan, enabling our optometrists to see any abnormalities earlier.
- Scans can detect macular degeneration, glaucoma, diabetes or monitor for any change if you have a family history of these conditions.
- Available as part of our premium private eye examination, or upgrade an NHS sight test for a small fee.
