

We are looking for a

Dispensing Optician or Dispensing Optical Assistant

**Do you want to work in a high-quality independent optometry practice?
Would you like to be part of a service that provides innovative clinical
NHS services as well as traditional optometry care?**

**Would you like to work in an innovative, flexible and supportive team?
Yes, Yes, Yes?...**

East Quay Vision is looking for you!

East Quay Vision was set up in 2009 by two local optometrists, the GPs in a GP practice and their Practice Manager. Gareth Dunn and Coraley Dunn now lead the team and the entire team is committed to providing high quality professional optometry care tailored to individual patients and values the close links it has with a large, innovative GP practice.

We have a large (and growing) solid patient base and continue to grow our traditional services as well as develop new optometry services. We currently offer NHS funded treatment for acute eye conditions, glaucoma screening and glaucoma monitoring.

We would like a Dispensing Optometrist or Dispensing Optical Assistant to join our team now to enable us to expand our patient base further and our range of NHS and private services. We offer an attractive employment package as well as the exciting career opportunities that are integral to being part of an innovative professional team. We are flexible in terms of the number of hours and lay out in the week. We are very committed to ensuring a good work/life balance for our team.

We welcome all applications from the spectrum of people with Dispensing experience and at all stages of their career. Ideally we'd like someone to start between now and November.

If you are interested in joining our team at this exciting time please contact Rachel Stark (Manager) on 01278 440 440 or e-mail Rachel.stark1@nhs.net
