

At East Quay we believe in providing the best level of care and attention, tailored to meet the needs of each person we see. This philosophy also extends to all our eye care services.

During your visit we take the time to clearly explain the procedures carried out and your results so you understand what it all means.

50% Discount

On a second pair of glasses
throughout **JULY**

Driving glasses

The police and insurers are paying more attention to whether people who need glasses wear them for driving. If you have a moderate prescription or more (+ or – 4) think about having a second pair of glasses for in your car. Be sure to ask about our clean and clear anti-glare protective lenses to stop that night driving glare!

Happy Anniversary

East quay vision are celebrating our 10 year anniversary in July! We have enjoyed our last 10 years and meeting all our fantastic patients. We would like to offer 10% discount on all spectacle orders. From all the staff at East Quay Vison thank you for your continued support.

HELP EAST QUAY VISION GO GREEN!

Bring in your empty bottles of East Quay Vision lens cleaner and receive and refill for only £1!

RECYCLE

WAYS TO REDUCE YOUR CARBON FOOTPRINT

- Reuse and recycle your rubbish waste
- Pay attention to packaging and use reusable bags
- Ditch bottled water and get a reusable canteen or flask
- Buy organic and local produce that was grown in an eco-friendly way
- Save energy by turning off your appliances and use energy saving devices
- Keep the heat in and insulate your home
- Conserve water and watch your usage
- Travel green and walk, cycle or use public transport
- Grow your own food

FUNDUS PHOTOGRAPHY

Modern technology means that your optometrist can now use a special camera to take photographs of the inside of your eyes. This allows us to see any abnormalities very easily, and provides a permanent record of the condition of your eyes at a certain date. This is especially useful if you have diabetes, glaucoma, or many other conditions as we can compare any changes to the 'snapshot' we have on record.

Each time you visit us we can take photographs of the inside of your eyes and compare them to photographs that we took last time. It is much easier to spot problems if we can see how your eyes are changing over time. And the earlier we spot problems, the more likely it is that they can be treated before they cause irreversible damage. The process itself doesn't hurt at all – all that is involved is a brief flash of light as the photograph is taken and the image will appear on the computer screen.

This procedure is currently private as the NHS do not provide for this examination. If you are eligible for NHS there is a charge of £28. If you are a private patient then ask for the private upgrade which will be £49 for the full exam including sight test.
